Proposal Submission – MOHWA Canada Website Development

Submitted to: MOHWA Canada

Submitted by: Voltaire Analytics

Date: May 9, 2026

Executive Summary

Voltaire Analytics is pleased to submit this proposal for the design and development of the MOHWA Canada website. With more than 10 years of combined experience in technology, analytics, digital transformation, and business solutions, we specialize in delivering reliable, scalable, and professionally designed digital platforms tailored to organizational needs.

Our goal is to develop a modern, secure, and fully responsive website that strengthens MOHWA's Canada online presence, supports community engagement, and provides a seamless experience for both visitors and administrators. The proposed solution will prioritize accessibility, usability, performance, and long-term sustainability while aligning with current industry standards and best practices.

This proposal outlines a complete website development solution designed to provide MOHWA Canada with a professional digital platform that is visually engaging, easy to manage, and scalable for future organizational growth.

About Voltaire Analytics

Voltaire Analytics is a technology and digital solutions company focused on helping organizations improve operations, visibility, and user engagement through innovative and practical digital services.

Our experience spans website development, data systems, analytics, reporting solutions, business intelligence, and digital optimization across multiple industries and organizational environments. We combine technical expertise with a results-driven approach to deliver solutions that are reliable, maintainable, and aligned with client objectives.

We are committed to professionalism, transparency, timely delivery, and long-term client satisfaction.

Organizational Experience & Qualifications

Voltaire Analytics brings:

- Over 10 years of combined experience in technology and digital solutions
- Expertise in website design, development, analytics, and system optimization
- Strong understanding of user-focused and accessibility-oriented design principles
- Experience delivering scalable and maintainable digital platforms
- Proven ability to provide cost-effective and reliable technology solutions
- Commitment to professional communication, project transparency, and quality delivery

Our approach focuses not only on building websites, but on creating digital platforms that effectively support organizational visibility, engagement, and operational efficiency.

Project Scope & Deliverables

Voltaire Analytics will provide complete website development services for MOHWA Canada, including:

Website Design & Development

- Custom website design aligned with MOHWA Canada branding and organizational goals
- Fully responsive design optimized for desktop, tablet, and mobile devices
- Modern, clean, and professional user interface
- Intuitive navigation and content structure

Technical Setup

- Domain registration included for the first year
- Secure website hosting included for three years
- SSL security configuration

Mobile: +1 (780)-915-9615

Email: Contact@voltaireanalytics.com

Service Countries: USA & Canada

- Website backup configuration
- Basic website security setup

Features & Functionality

- Contact and inquiry forms
- Social media integration capability
- Image and media integration
- Basic search engine optimization (SEO)
- Google indexing readiness
- Google Analytics setup
- Integration-ready architecture for future enhancements

Content Management

- Development using an industry-standard content management system (CMS)
- Simplified administrative interface for content updates
- Administrator orientation and basic content management guidance

Testing & Deployment

- Cross-device and browser testing
- Website deployment and launch support
- Post-launch technical review and adjustments

Development Approach & Methodology

Our development methodology is centered on reliability, usability, scalability, and long-term sustainability.

User Experience Focus

The website will be designed to provide a clear, accessible, and engaging experience for visitors while ensuring ease of navigation and content accessibility.

Service Countries: USA & Canada

Responsive & Accessible Design

The platform will be optimized for multiple devices and built following modern accessibility and responsive design standards.

Performance Optimization

Website performance, loading speed, and technical efficiency will be prioritized to ensure a smooth and professional user experience.

Scalable Architecture

The website structure will be designed to support future growth, additional functionality, and potential third-party integrations.

Project Management & Quality Assurance

The project will follow a structured delivery process with clearly defined scope, timelines, communication, and testing procedures to ensure efficient and reliable implementation.

Why Choose Voltaire Analytics

MOHWA Canada will benefit from partnering with a company that values professionalism, reliability, and long-term support.

Key advantages include:

- Professional and responsive communication
- Fast and efficient project delivery
- Scalable and maintainable development practices
- Cost-effective solutions with long-term value
- Strong technical expertise combined with practical business understanding
- Commitment to quality, transparency, and client satisfaction

Our objective is to provide MOHWA Canada with a dependable digital platform that delivers measurable value and supports future organizational growth.

Payment Terms

- 50% deposit required prior to project commencement
- Remaining 50% due upon project completion and approval

Any additional work requested outside the agreed project scope may require separate quotation and approval.

Post-Launch Support

Voltaire Analytics will provide 30 days of post-launch technical support to address any setup issues, minor adjustments, or bug fixes related to the original project scope.

Additional support services may be provided through optional maintenance agreements.

Value to MOHWA Canada

This proposal provides MOHWA Canada with a professional, reliable, and cost-effective digital solution designed to support organizational growth and community engagement.

Key benefits include:

- A professional and credible online presence
- Improved accessibility to information and services
- Simplified content management capabilities
- Long-term cost efficiency through included hosting
- Scalable infrastructure for future enhancements
- Reliable technical support and professional project execution

The proposed solution is designed to provide both immediate value and long-term sustainability.
